Collection and usage attributes

Guide for use: This data element is used to determine a <u>non-admitted patient service event</u>.

All codes in the value domain are in-scope for this purpose, with the exception of

NCE (Non-Client Event / Chart Only).

Non-Client Event / Chart Only refers to an appointment time that a clinician has set aside to review a patient's chart, without the patient being present. This type of appointment does not meet the criteria for a non-admitted patient service event

since there is no interaction between the clinician and the patient.
