

Service type outlet—number of service operation weeks, total NN

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Service operation weeks
METEOR identifier:	497588
Registration status:	<ul style="list-style-type: none">• Community Services (retired), Standard 10/04/2013 [Non Dictionary]• Disability, Superseded 15/12/2017
Definition:	The number of weeks during a specified period that a service type outlet is open to provide services.
Data Element Concept:	Service type outlet—number of service operation weeks

Value domain attributes

Representational attributes

Representation class:	Total						
Data type:	Number						
Format:	NN						
Maximum character length:	2						
Supplementary values:	<table><thead><tr><th>Value</th><th>Meaning</th></tr></thead><tbody><tr><td>90</td><td>No regular pattern of operation through a year</td></tr><tr><td>99</td><td>Not stated/inadequately described</td></tr></tbody></table>	Value	Meaning	90	No regular pattern of operation through a year	99	Not stated/inadequately described
Value	Meaning						
90	No regular pattern of operation through a year						
99	Not stated/inadequately described						
Unit of measure:	Week						

Collection and usage attributes

Guide for use:	A week is measured from 12:00AM (midnight) Monday morning to 11:59PM the following Sunday. If a service operates within this period then it is counted as having operated during that week. Therefore if an agency operates for only a short time for one of the days within a week, it is counted as operating during that week.
-----------------------	---

Data element attributes

Collection and usage attributes

Guide for use:	Valid numbers are 01 to 52.
Comments:	When collected in conjunction with the number of service operation hours in a day and the service operation days in a week this metadata item can provide useful information on patterns of service delivery.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare

Implementation in Data Set Specifications:

[Disability Services NMDS 2015–16Disability](#), Superseded 28/09/2016

Implementation start date: 01/07/2015

Implementation end date: 30/06/2016

DSS specific information:

In the Disability Services Minimum Data Set (DS NMDS), this data element refers to the number of weeks the [service type outlet](#) usually operates. It is asking about the amount of time the service type outlet is generally open for service provision to [service users](#), not about the amount of time a service type outlet is staffed.

A service type outlet is considered to be operating whenever service is provided to service users e.g. if the service type outlet closes for only 2 weeks over the Christmas period it is considered to usually operate for 50 weeks per year.

This data element is seeking information about the usual weeks of operation of a service type outlet. For example, if a service type outlet received funding from September but intends to operate for 52 weeks per year, '52' is recorded for this data item, and 'No' is recorded for the '[Service provider organisation—full financial year funding indicator, yes/no code N](#)' data item.

Service type outlet should record '90' ('no regular pattern of operation through a year') if the service type outlet does not have a regular pattern of operation; for example, a recreation/holiday program which is offered only if there are sufficient numbers (i.e. program offered on demand).

Service type outlets of [service types](#) 7.01–7.04 may record '90' ('no regular pattern of operation through a year'), or, if it is possible and they wish to do so, they may record the actual number of weeks of operation.
