Service type outlet—number of service operation days, total N[N]

Identifying and definitional attributes

Metadata item type: Data Element

Short name: Service operation days

METEOR identifier: 497592

Registration status: Community Services (retired), Standard 10/04/2013 [Non Dictionary]

Disability, Superseded 15/12/2017

Definition: The number of days that a service type outlet is usually open to provide services.

Data Element Concept: Service type outlet—number of service operation days

Value Domain: <u>Total service operation days N[N]</u>

Value domain attributes

Representational attributes

Representation class: Total

Data type: Number

Format: N[N]

Maximum character length: 2

Value Meaning

Supplementary values: 90 No regular pattern of operation through a week

99 Not stated/inadequately described

Unit of measure: Day

Data element attributes

Collection and usage attributes

Guide for use:

Record whole numbers only rounded up to the nearest whole day, for the total number of days per week on which the service type outlet provides any service to service users.

A service type outlet is considered to be operating whenever service is provided to service users (for example, if a service type outlet is open for 4 days per week for service provision to service users, and 1 day per week for management/administration then the service type outlet should indicate that it operates 4 days per week).

The service must be provided by the service type outlet but not necessarily from its physical setting. For example 'own home respite' that is arranged by a service type outlet to occur on a particular day on which the office of that service type outlet is not open still counts as a day of operation for that service type outlet.

When a service type outlet is available for service users on a day but does not provide services to service users on that day it should still be counted as a day of operation. For example, a service type outlet may be open for service, such as an advocacy service, but no service users are seen.

Services which have no regular weekly pattern of operation should record code 90 'no regular pattern of operation through a week'. This includes, for example, cases where a service will be made available to a service user after hours only upon request (for example, through staff on call).

Collection methods: This data element should be reported for all service type outlets.

Specifications:

Implementation in Data Set Disability Services NMDS 2015–16 Disability, Superseded 28/09/2016

Implementation start date: 01/07/2015 Implementation end date: 30/06/2016

DSS specific information:

In the Disability Services Minimum Data Set (DS NMDS), this data element refers to the number of days per week the service type outletusually operates. It is asking about the amount of time the service type outlet is generally open for service provision to service users, not about the amount of time a service type outlet is staffed.

Service type outlets of service types 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of days per week of operation.

Disability Services NMDS 2016–17 Disability, Superseded 15/12/2017

Implementation start date: 01/07/2016 Implementation end date: 30/06/2017

DSS specific information:

In the Disability Services National Minimum Data Set (DS NMDS), this data element refers to the number of days per week the service type outletusually operates. It is asking about the amount of time the service type outlet is generally open for service provision to service users, not about the amount of time a service type outlet is staffed.

Service type outlets of service types 7.01–7.04 may record '90' ('no regular pattern of operation through a day'), or, if possible and they wish to do so, they may record the actual number of days per week of operation.
