Data element attributes

Collection and usage attributes

Guide for use:	This item may be used to record the date that housing assistance was completed. The client may continue receiving housing assistance after this date.

Relational attributes

Implementation in Data Set Specifications:

Household (housing assistance) cluster
Housing assistance, Superseded 01/05/2013

DSS specific information:

This metadata item is used in calculation of measures of periods of support and duration of assistance and for measuring various point in time data.

The date on which provision of housing assistance by an agency was completed, ceased or terminated.

This metadata item should always be recorded as an 8 digit valid date comprising day, month and year. Year should always be recorded in its full 4 digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, if an episode is completed on July 1 2002 date should be recorded as 01072002.

Tenancy end date must be related to a particular housing assistance episode. For each separate housing assistance episode a separate date should be recorded.

For the public rental housing and state owned and managed Indigenous housing

data collections the tenancy end date should be taken from the date specified on the tenancy agreement. Tenants may actually move out prior to this date.
