National Healthcare Agreement: PB b-Better health: halve the mortality gap for Indigenous children under five by 2018, 2013

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PB b-Halve the mortality gap for Indigenous children under five by 2018, 2013
METEOR identifier:	498356
Registration status:	Health , Superseded 30/04/2014
Description:	Difference in the mortality rate between Indigenous children aged 0–4 years and non-Indigenous children aged 0–4 years.
Indicator set:	National Healthcare Agreement (2013) Health , Superseded 30/04/2014
Outcome area:	Primary and Community Health Health , Standard 07/07/2010

Collection and usage attributes

Population group age from:	0 years
Population group age to:	4 years
Computation description:	Presented as number of deaths per 100,000 population
Computation:	100,000 × (Numerator ÷ Denominator)
	Variability bands are to be calculated for rates using the following method for estimating 95% confidence intervals:

Crude rate

$$CI (CR)_{95\%} = CR \pm 1.96 \times \frac{CR}{\sqrt{\sum_{i=1}^n d}}$$

where d = number of deaths in the relevant age-group.

Numerator:	Number of deaths among children aged 0–4 years
-------------------	--

Numerator data elements:	Data Element / Data Set
---------------------------------	--------------------------------

[Person—age, total years N\[NN\]](#)

Data Source

[ABS Death Registrations Collection](#)

Guide for use

Data source type: Administrative by-product data

Denominator:	Population aged 0–4 years
---------------------	---------------------------

Denominator data elements:

Data source type: Administrative by-product data

Disaggregation:

2007, 2008, 2009 (resupplied for revision to ABS WA and national Indigenous deaths data), 2010 (supplied for Indigenous status), 2011—Nationally, by Indigenous status.

Some disaggregations may result in numbers too small for publication. Disaggregation by Indigenous status will be based on data only from jurisdictions for which the quality of Indigenous identification is considered acceptable - NSW, Qld, WA, SA and NT.

Guide for use

Data source type: Administrative by-product data

Used for disaggregation by state/territory

Comments:

Most recent data available for 2013 CRC report: 2011.

Baseline: 2007.

A system error affected the reporting of WA Aboriginal and Torres Strait Islander death registrations for 2007, 2008 and 2009 which affected the WA and national death rates reported for the 2011 and 2012 CRC reports. These data have been revised for 2013 reporting.

Further details (including data for 2002–06) are available from the Aboriginal and Torres Strait Islander Health Performance Framework (Indicator 1.19).
