# Informal carer benefits cluster

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Set Specification
<b>METEOR identifier:</b>	509178
<b>Registration status:</b>	<a href="#">Community Services (retired)</a> , Standard 10/04/2013 [Non Dictionary] <a href="#">Disability</a> , Standard 13/08/2015
<b>DSS type:</b>	Data Element Cluster
<b>Scope:</b>	This cluster may be applied to informal carers associated with clients of specialist disability services.

## Collection and usage attributes

**Guide for use:** Because a carer can receive more than one type of benefit, and for more than one care recipient, all four items should be asked for each carer associated with a client.

**Collection methods:** The information for this cluster may be collected by the following type of matrix question:

Does the informal carer receive (select one response for each type of benefit):

Type of benefit	Yes	No	Don't know
Carer Allowance (caring for a person 16 years or over)			
Carer Allowance (caring for a child under 16 years)			
Carer Payment (caring for a person 16 years or over)			
Carer Payment (caring for a child under 16 years)			

**Comments:** There are additional cash payments available to carers (such as Carer Supplement and Child Disability Assistance Payment), eligibility for which generally is receipt of Carer Payment and/or Carer Allowance; hence, these other payment types are not included in this cluster because they don't add substantively to the information collected by the two data elements included.
