## Identifying and definitional attributes

**Metadata item type:** Classification Scheme

**METEOR identifier:** 512458

**Registration status:** [Youth Justice, Standard 15/02/2022](#)

**Definition:** The Australian Bureau of Statistics (ABS) classification for standard offences.

**Classification structure:** The ANZSOC is a classification with three levels: Divisions (the broadest level), Subdivisions (the intermediate level) and Groups (the finest level). At the divisional level, the main purpose is to provide a limited number of categories that provide a broad overall picture of offence types, that are suitable for the publication of summary tables in official statistics. The subdivision and group levels provide increasingly detailed dissections of these categories for the compilation of more specific and detailed statistics.

The structure of the ANZSOC is illustrated below.

Level Example

Division 10 Illicit drug offences

Subdivision 101 Import or export illicit drugs

Group 1011 Import illicit drugs

There are 16 divisions within the ASOC with codes numbered 01 to 16. The divisional structure for the third edition of ANZSOC is as follows:

04 Dangerous or negligent acts endangering persons

05 Abduction, harassment and other offences against the person
