Accountability attributes

Reporting requirements: Annually to COAG.

Organisation responsible for providing data: Australian Institute of Health & Welfare.

Further data development / collection required:

Other issues caveats: Indicator (d) is based on indicators (c) and (f) in the previous NDA. A revised method of calculating the potential population affects the denominators. These changes have resulted in a break in series with data included in previous reports. Data have been backcast for 2008-09 and 2009-10. The scope of open employment services has changed and now includes Disability Management Services (DMS), in addition to Employment Support Services (ESS). Data have been backcast to provide a comparable time series.
