National Healthcare Agreement: PI 13-Waiting times for public dentistry, 2014

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 13-Waiting times for public dentistry, 2014
METEOR identifier:	517658
Registration status:	Health , Superseded 14/01/2015
Description:	Waiting time between being placed on a public dentistry waiting list and being seen by a dental professional.
Indicator set:	National Healthcare Agreement (2014) Health , Superseded 14/01/2015
Outcome area:	Primary and Community Health Health , Standard 07/07/2010
Data quality statement:	National Healthcare Agreement: PI 13-Waiting times for public dentistry (Patient Experience Survey), 2014 QS Health , Superseded 14/01/2015

Collection and usage attributes

Computation description:	<p>Numerator refers to waiting time for most recent appointment with a government dental professional in the last 12 months.</p> <p>Excludes treatment for urgent dental care.</p> <p>Population is limited to persons aged 15 years and over.</p> <p>Rates directly age-standardised to the 2001 Australian population.</p> <p>Analysis by remoteness and Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socioeconomic Disadvantage (IRSD) is based on usual residence of person.</p> <p>Presented as a percentage.</p> <p>95% confidence intervals and relative standard errors are calculated for rates.</p>
Computation:	100 x (Numerator ÷ Denominator) calculated separately for two waiting time categories (less than one month, one month or more).
Numerator:	<p>(a) Number of persons aged 15 years and over who reported being on a public dental waiting list who reported seeing a dental professional at a government dental clinic (for their own health) within specified waiting time categories. (Excludes urgent dental care).</p> <p>(b) Number of persons aged 15 years and over who reported seeing a dental professional at a government dental clinic in the last 12 months for non-urgent treatment by specified waiting time categories.</p>

Numerator data elements:**Data Element / Data Set****Data Element**

Persons who reported being on a public dental waiting list who reported seeing a dental professional at a government dental clinic (for their own health)

Disaggregation:

2012–13—Nationally, by measure (a) by waiting time category, by:

- 2011 Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socioeconomic Disadvantage (IRSD) quintiles
- remoteness (Australian Statistical Geography Standard (ASGS) Remoteness Structure)

2012–13—State and territory, by measure (a) by waiting time category.

2012–13—Nationally (non-remote areas of Australia only), by measure (b) by waiting time category by:

- Indigenous status (Indigenous only) by remoteness (ASGS Remoteness Structure)

Some disaggregation may result in numbers too small for publication.

Data source type: Survey

Used for disaggregations by state/territory, remoteness and SEIFA IRSD

Comments: Most recent data available for the 2014 Council of Australian Governments (COAG) Reform Council (CRC) report: 2012–13 (total population: PEX; Indigenous: AATSIHS).

Non-Indigenous data from PEX may not be directly comparable with data for Indigenous people from AATSIHS.

Indigenous data for the 2014 CRC report is sourced from the National Aboriginal and Torres Strait Islander Health Survey (NATSIHS) component of the AATSIHS.

In the Patient Experience Survey of 2011/12, waiting times referred only to those who had seen a dental professional at a government dental clinic. These data were used for the 2013 reporting cycle. In 2012/13, the question was expanded to all those who had been put on a waiting list for a government dental clinic and these data are reported in the 2014 reporting cycle. Neither of these options include the possibility of using other services that have been outsourced by a government process.

The ABS Patient Experience Survey is being used as an interim data source for this indicator, while a Public Dental Waiting Times NMDS is developed. The first data available from the new NMDS is expected to be in respect of the 2013-14 financial year.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: N[NN].N

Indicator conceptual framework

Framework and dimensions: [Accessibility](#)

Data source attributes

Data sources:

Data Source
