Data type:	String
Format:	X[X(19)]
Maximum character length:	20

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
---------------------------------	--

Data element attributes

Collection and usage attributes

Guide for use:	The registration board is expected to maintain this identifier as a persistent identifier for a practitioner across the professions. This identifier is different to the profession registration identifier, as a practitioner may have multiple professions with different registration identifiers.
