# National Indigenous Reform Agreement: PI 15b-Proportion of Indigenous 20-64 year olds with or working towards a post-school qualification in Certificate level III or above (survey data), 2014

## Identifying and definitional attributes

Metadata item type: Indicator Indicator type: Indicator

**Short name:** PI 15b-Proportion of Indigenous 20-64 year olds with or working towards a post-

school qualification in Certificate level III or above (survey data), 2014

METEOR identifier: 525731

Registration status: Indigenous, Superseded 24/11/2014

**Description:** Proportion of people aged 20–64 years with or working towards post-school

qualifications in Australian Qualifications Framework (AQF) Certificate level III or

above by Indigenous status.

Rationale: Post-secondary education leads to better employment prospects and for

Indigenous persons will help to achieve the target to halve the gap in employment

outcomes within a decade.

Indicator set: National Indigenous Reform Agreement (2014)

Indigenous, Superseded 24/11/2014

Outcome area: The Indigenous workforce age population has the depth and breadth of skills and

capabilities required for the 21st century labour market

Indigenous, Standard 21/07/2010

Data quality statement: National Indigenous Reform Agreement: PI 15b-Proportion of Indigenous 20-64

year olds with or working towards a post-school qualification in Certificate level III or

above (survey data), 2014 QS

Indigenous, Superseded 17/02/2016

# Collection and usage attributes

Population group age

20 years

from:

Population group age to: 64 years

**Computation description:** Presentation: Number and percentage (per 100 persons).

95% confidence intervals and relative standard errors are calculated for

proportions.

**Computation:** 100 x (Numerator ÷ Denominator).

**Numerator:** People aged 20–64 years who have attained post-school qualifications in AQF

Certificate level III or above, or are currently studying a non-school qualification.

Comments:

Data sources for this measure are:

 NATSISS (Indigenous); NATSIHS component of the AATSIHS (Indigenous); and SEW (non-Indigenous).

The baseline report presented data from the 2008 SEW (non-Indigenous) as the supplementary data collection. The next available data source will be the 2012-13 AATSIHS for the Indigenous population.

For persons 'with' a non-school qualification:

- Persons whose level of non-school qualification is determined to be certificate level but is not able to be further defined (i.e. Certificate nfd) are assumed to have attained a qualification below Certificate level III and are therefore excluded from the numerator for this indicator.
- Persons whose level of non-school qualification cannot be determined are assumed to have attained a qualification below Certificate level III and are therefore excluded from the numerator for this indicator.

For persons 'working towards' a non-school qualification:

 Level of qualification is not available for people 'working towards' post-school qualifications. Therefore, people working towards any non-school qualification are included in the calculations for this indicator.

At this stage, the Australian Bureau of Statistics (ABS) advises that information is only available on qualification levels for those who have completed studies (not those who are currently studying). Therefore, the ABS recommended restricting the definition for baseline reporting accordingly to those who have completed Certificate Level III or above, and those currently studying a non-school qualification.

Prior to 2010, the Survey of Work and Education (SEW) did not include people living in very remote areas. From 2010 onwards, the SEW does not include people living in Indigenous communities in very remote areas. This may affect the comparability of results.

Prior to 2010, the SEW did not include the remoteness variable. Therefore, a non-Indigenous comparator for remoteness for the 2008 NATSISS is not reported.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

Baseline year for NIRA target (Halve the gap in employment outcomes within a decade) is 2008; baseline year for this measure is 2008; target year is 2018.
