

Carer household—household identifier

Metadata item type: Data Element Concept

METEOR identifier: 529756

Registration status:

- [Children and Families](#), Standard 22/11/2016

Definition: A combination of alphanumeric characters that uniquely identify a specific group of carers who provide funded out-of-home care within the same household.

Object Class attributes

Identifying and definitional attributes

Object class: [Carer household](#)

Definition: A 'carer household' is a private household containing one or more carers:

- who have undergone the relevant screening/selection and approval process; and;
- who have received authorisation from the relevant department or agency to enable a child to be placed in their care, including carers who have received provisional authorisation; and
- for whom reimbursement is available from a government authority or non-government organisation for expenses incurred in caring for the child; and
- who are part of an ongoing review process.
