**Description:** The National Bowel Cancer Screening Program performance indicator set (NBCSP PIs) comprises a set of standard indicators used for monitoring the National Bowel Cancer Screening Program (NBCSP). The indicator set includes information on people who have participated or will be participating in the National Bowel Cancer Screening Program.

The indicator set is intended to be used by the National Bowel Cancer Screening Register. It can also be used by a wider range of health and health-related professionals who collect and/or use the data in relation to the National Bowel Cancer Screening Program.

The indicator set provides concise, unambiguous definitions for items related to the Program and aims to ensure the standardised methodology of data collection.

## Collection and usage attributes

**Implementation start date:** 01/07/2014

**Implementation end date:** 31/12/2018

**Comments:**

*Periods for which data are collected and nationally collated*

Financial years ending 30 June each year.

This set of performance indicators reflects the current collection strategy of the NBCSP, i.e. data collection on a financial year basis. This may be reviewed at the completion of the biennial screening rollout, or earlier if program changes warrant it.
