Guide for use

This date may not necessarily be the date that supervision began; for example, if a sentence of detention is backdated to the start of the young person's remand period, the order start date will be before the period of sentenced detention actually began.

Orders may be concurrent and overlap; that is, the order start date may be before the order end date of the previous order.

The order start date is the date the order first comes into effect, which may not necessarily be the same as the date the court handed down the order. Orders that are handed down by a court to take effect in the future should not be backdated to the date they were handed down.

Business rules

- The order start date must be on or before the order end date.
- The young person must be aged at least 10 years (based on date of birth) at the order start date.
- The young person should be aged 10–25 years at the order start date.
- The order start date must be on or before the end of the reporting period.
- If the order end reason for a previous order was 3 (death) there must not be any subsequent orders.
- If the order identifier matches the order identifier of another record and the person identifiers are the same, the order end date of the first record should equal the order start date of the second record.
