

Government health expenditure organisation expenditure employee related data element cluster

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	542014
Registration status:	<ul style="list-style-type: none">• Health, Standard 04/12/2013
DSS type:	Data Element Cluster
Scope:	The scope of this data cluster is direct government and government-funded expenditure by a health industry relevant organisation consisting mainly of wages, salaries and supplements, superannuation employer contributions, and workers compensation premiums and payouts. These are all either health and health-related goods and services or non-health care goods and services to support the health industry relevant organisation's activities.

Collection and usage attributes

Guide for use:	Expenses are to be reported in millions to the nearest 100,000, e.g. \$4.1 million.
Collection methods:	This data is collected according to the organisation's main activity types and type of health or health-related function relevant to each state and territory. This is supplied by the GHE and specified in the reporting guidelines as provided by the Australian Institute of Health and Welfare (AIHW).
