National Health Performance Authority: Healthy Communities: 2011–

Identifying and definitional attributes

Metadata item type:	Indicator Set
Indicator set type:	COAG IGA
METEOR identifier:	550329
Registration status:	National Health Performance Authority (retired) , Retired 01/07/2016
Description:	<p>The objective of the Healthy Communities indicator set is the monitoring and reporting of performance of primary health care at the local level focusing on Medicare Locals. The indicators in this set will provide contextual information about each local area, allowing comparisons with Australian averages.</p> <p>The National Health Performance Authority's work is underpinned by the Performance and Accountability Framework that was endorsed by the Council of Australian Governments and released in May 2012.</p> <p>The Performance and Accountability Framework identifies 48 indicators against which performance will be measured under the domains of equity, effectiveness and efficiency. There are 17 hospitals indicators and 31 indicators for primary health care organisations. For more detail visit following website; http://www.nhpa.gov.au/internet/nhpa/publishing.nsf/Content/PAF</p>
