Definition:	The total number.

Representational attributes

Representation class:	Total
Data type:	Number
Format:	N[NNNN]
Maximum character length:	5

Source and reference attributes

Data element attributes

Collection and usage attributes

Guide for use:	A child is defined as attending an early childhood education program if they attended for at least one hour during the reference period. Children who were absent during the reference period due to illness or extended holiday leave should be excluded.
Collection methods:	<p>The number of Indigenous children attending an early childhood education program should be collected for each early childhood education program available at the service. These data should then be aggregated to the service provider level for reporting purposes.</p> <p>Each child should be counted only once.</p> <p>Attendance in an early childhood education program should be reported for the specified reference period.</p> <p>Jurisdictions which adopt a two week reference period are required to derive their data to a representative reference week.</p>
