Value domain attributes

Representational attributes

Representation class:	Identifier
Data type:	String
Format:	X(15)
Maximum character length:	15

Data element attributes

Collection and usage attributes

Guide for use:	<p>The service identifier includes components that identify main service type, state/territory and a number for each service.</p> <p>Each service included in the Early Childhood and Education data collection should have a unique identifier at the national level.</p> <p>All individual caregivers working for family day care/in-home care services are provided with the same service identifier as the service in which they work.</p>
Comments:	<p>The number may be used to identify particular records that require some follow-up contact with services to resolve any queries on the data reported.</p>
