|---|---|
| **Submitting organisation:** | National Perinatal Epidemiology and Statistics Unit |
| **Origin:** | National Maternity Data Development Project (AIHW and NPESU), Maternity Care Classification System subproject. |

# Property attributes

## Identifying and definitional attributes

| | |
|---|---|
| **Property:** | Target group |
| **Definition:** | A group of people sharing a common characteristic or set of characteristics which a particular government policy or program, or agency seeks to assist. |
| **Context:** | Target group is used in describing community services agencies, in service planning and in comparing community needs and service availability. Target groups may relate to population groups or communities, families/households, individuals, organisations or labour force groups. Characteristics may include age, cultural identity, geographic location, specific needs and other relevant characteristics. |
| **Property group:** | Organisational characteristics |
