	80	Other specific cultural groups not already specified
	81	Other social groups not already specified
	82	Other vulnerable groups not already specified
Supplementary values:	88	Other maternity target groups
	99	Not stated/inadequately described

Collection and usage attributes

Guide for use:**CODE 3 Low risk or normal pregnancy**

This code is to be used if a model of care is restricted to women with "low-risk" or "normal" pregnancies.

CODE 4 All excluding high risk pregnancy

This code is used for models of care that care for all women EXCEPT those considered to have a high risk pregnancy.

CODE 5 Complex or high risk pregnancy

This code is to be used for high-risk clinics or maternal-fetal medicine clinics or models of care.

CODE 6 Breech presentation of fetus

This code is to be used for breech clinics or models of care.

CODE 7 Multi fetal pregnancy

This code is to be used for twin/triplet clinics or models of care.

CODE 8 Next birth after caesarean section

This code is to be used for "vaginal birth after caesarean (VBAC)" or "next birth after caesarean (NBAC)" clinics or models of care.

CODE 10 Maternal diabetes and other endocrine disorders

This code is used for "Diabetes clinics" or models targeted at women with any endocrine disorder including thyroid conditions.

CODE 11 Maternal obesity or high body mass index (BMI)

This code is to be used for bariatric clinics or models of care.

CODE 13 Maternal age – young

This code is to be used for models of care targeted specifically at young women.

CODE 15 Maternal remote area of residence

This code is used for models of care targeted at women in remote communities. This is not restricted to remote indigenous communities but models that provide care for any woman who lives in a remote area.

CODE 80 Other specific cultural groups not already specified

This code is to be used for models of care targeted at specific cultural groups not specified by other codes, such as particular ethnic groups.

CODE 81 Other social groups not already specified

This code is to be used for models of care targeted at women from specific social groups not specified by other codes.

CODE 82 Other vulnerable groups not already specified

This code is to be used for models of care targeted at vulnerable women not specified by other codes, such as women affected by domestic violence, women in custody etc.

CODE 88 Other maternity target groups

This code is used for models of care targeted at other specific groups of women not specified by other codes. This includes models targeting women from a particular suburb or postcode range (excluding those in remote areas – use CODE 15).
