# Maternity model of care—type of additional remote or rural service, antenatal/postnatal service code N[N]

## Identifying and definitional attributes

|                             |  |
|-----------------------------|--|
| <b>Metadata item type:</b>  | Data Element   |
| <b>Short name:</b>          | Type of additional antenatal/postnatal remote or rural service   |
| <b>METEOR identifier:</b>   | 558776   |
| <b>Registration status:</b> | <a href="#">Health</a> , Standard 14/05/2015   |
| <b>Definition:</b>          | The type of additional rural and remote antenatal/postnatal service provided in a maternity model of care, as represented by a code. |
| <b>Context:</b>             | Used in remote or rural maternal and perinatal healthcare settings.  |

## Data element concept attributes

### Identifying and definitional attributes

|                              |  |
|------------------------------|--|
| <b>Data element concept:</b> | <a href="#">Maternity model of care—type of additional remote or rural service</a>                         |

## Data element attributes

### Collection and usage attributes

|                            |   |
|----------------------------|---|
| <b>Guide for use:</b>      | <p>Report a permissible value indicating an additional service that is included specifically for remote or rural women in a model of maternity care. These additional services are provided for women who reside at a significant distance from a maternity service.</p> <p>CODE 1 Fly-in-fly-out clinicians</p> <p>This may include Medical Specialist Outreach Assistance Program (MSOAP) services or any maternity care clinician (midwife or doctor) who travels to a remote community from a metropolitan centre specifically to provide antenatal/postnatal care.</p> <p>CODE 2 Telehealth</p> <p>This code is for any model of care that includes visits with a clinician via telehealth technology.</p> <p>CODE 3 Community-based remote-area clinicians</p> <p>This code is for models of care where remote-area nurses, midwives and or doctors provide care to women in their local community.</p> |
| <b>Collection methods:</b> | Data are gathered using the Maternity Care Classification System (MaCCS) data collection questionnaire on an annual basis by every maternity service when classifying their models of care or when a new model of care is introduced.   |

**Implementation in Data Set Specifications:** [Maternity model of care NBPDS Health](#), Standard 14/05/2015

***Conditional obligation:***

Reporting of this data element is conditional upon the reported value of [Maternity model of care—additional remote or rural services offered indicator, yes/no code N](#) being Code 1 Yes.

***DSS specific information:***

This data element allows for multiple values to be recorded. Please record all additional services provided for remote or rural women in a model of maternity care.
