National Healthcare Agreement: PI 28-Proportion of residential aged care services that are three year re-accredited, 2015

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 28-Proportion of residential aged care services that are three year re-accredited, 2015
METEOR identifier:	559010
Registration status:	Health , Superseded 08/07/2016
Description:	Proportion of residential aged care services that are three year re-accredited.
Indicator set:	National Healthcare Agreement (2015) Health , Superseded 08/07/2016
Outcome area:	Aged Care Health , Standard 07/07/2010
Data quality statement:	National Healthcare Agreement: PI 28-Proportion of residential aged care services that are three year re-accredited, 2015 QS Health , Superseded 08/07/2016

Collection and usage attributes

Population group age from:

Computation description: Proportion of re-accreditations for three years for residential aged care services over the financial year in question.

Decisions are as in effect at 30 June and may not align exactly with what happened during the financial year as decisions may not have come into effect or may have been superseded.

Computation: $100 \times (\text{Numerator} \div \text{Denominator})$

Numerator: Number of residential aged care facilities that received re-accreditation for three years during the financial year, decision as in effect at 30 June.

Numerator data elements:

Data Element / Data Set

Data Element

Residential aged care facility—date of re-accreditation decision

Guide for use

Data source type: Administrative by-product data from the Australian Aged Care Quality Agency

Data Element / Data Set

Data Element

Residential aged care facility—re-accreditation status

Guide for use

Data source type: Administrative by-product data from the Australian Aged Care Quality Agency

Denominator:

Total number of residential aged care facilities that received re-accreditation decisions during the financial year.

Denominator data elements:

Data Element / Data Set

Data Element

Residential aged care facility—date of re-accreditation decision

Guide for use

Data source type: Administrative by-product data from the Australian Aged Care Quality Agency

Disaggregation:

2013–14—State and territory by:

- remoteness (Australian Statistical Geography Standard (ASGS) Remoteness Structure).
- size of residential aged care facility (places).

Some disaggregations may result in numbers too small for publication.

Disaggregation data elements:

Data Element

Residential aged care facility—geographical location

Guide for use

Data source type: Administrative by-product data from the Australian Aged Care Quality Agency

Used for disaggregation by state/territory and remoteness

Data Element / Data Set

Data Element

Residential aged care facility—number of residential aged care places

Guide for use

Data source type: Administrative by-product data from the Australian Aged Care Quality Agency

Comments: Most recent data available for the 2015 National Healthcare Agreement (NHA) performance reporting: 2013-14.

Commencing services receive accreditation for one year in the first instance, and are excluded from consideration until their first re-accreditation occurs.

Re-accreditation is provided for a period up to three years. Three year re-accreditation indicates that the facility:

- meets all or almost all 44 expected outcomes and/or does not have any failure to meet the standards that compromises the health, safety or wellbeing of the residents;
- has satisfied the Accreditation Agency that it will rectify any identified failure to meet the Accreditation Standards in a short timeframe;
- is not in breach of any other significant obligations under the Aged Care Act 1997 notified to the Accreditation Agency by the Department of Social Services; and
- has satisfied the Accreditation Agency that it undertakes continuous improvement.

Summary national and state/territory data appear in the annual report of the Aged Care Standards and Accreditation Agency and are also published in the annual Report on Government Services.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Accountability attributes

Reporting requirements: National Healthcare Agreement

Organisation responsible for providing data: Australian Aged Care Quality Agency

Further data development / collection required: Specification: Final, the measure meets the intention of the indicator.
