# Continuity of carer

## Identifying and definitional attributes

<b>Metadata item type:</b>	Glossary Item
<b>Synonymous names:</b>	Continuity of lead carer; Continuity of primary carer; Continuity of designated carer
<b>METEOR identifier:</b>	562460
<b>Registration status:</b>	<a href="#">Health</a> , Standard 14/05/2015
<b>Definition:</b>	Continuity of carer means care provided, or led, over the full length of the episode of care by the same named carer. Relational continuity is provided by the same named caregiver being involved throughout the period of care even when other caregivers are required. Other caregivers may be involved in the provision of care, either as a backup to the named carer or to collaborate in the provision of care, however the named carer remains to coordinate and provide ongoing care throughout.

## Source and reference attributes

<b>Submitting organisation:</b>	National Perinatal Epidemiology and Statistics Unit
