# Bowel cancer diagnostic assessment cluster

## Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	563761
Registration status:	<a href="#">Health</a> , Superseded 06/09/2018
DSS type:	Data Element Cluster
Scope:	<p>The Bowel cancer diagnostic assessment cluster comprises a set of standardised data definitions used for monitoring the National Bowel Cancer Screening Program (NBCSP). This cluster includes information on people who participated in the NBCSP and received a positive screening result and then had a <a href="#">cancer diagnostic assessment</a>.</p> <p>This metadata set is not mandated for collection, i.e. it reflects best practice when collecting data in relation to bowel screening rather than a nationally mandated set of data items that must be provided.</p> <p>It is intended to be used by the National Bowel Cancer Screening Register. It can also be used by a wider range of health and health-related professionals who collect and/or use the data in relation to the NBCSP.</p>

## Collection and usage attributes

Statistical unit:	Persons who either have participated in or will be participating in Bowel cancer screening programs and who have answered yes in relation to having undergone a cancer diagnostic assessment.

	<p><b>DSS specific information:</b></p> <p>The level of sedation used should comply with ANZCA standards (ANZCA 2010). The level of sedation used should generally be related to the risk of complications for each individual patient as documented in the pre-procedure patient assessment. Further, deep sedation and general anaesthesia may only be used in the presence of an anaesthetist or other appropriately trained and credentialed medical specialist within his/her scope of practice. Non-anaesthetist medical staff require adequate training in the safe and correct usage of sedation equipment and drugs, and in the management and monitoring of sedated patients in accordance with the guidelines.</p> <p>Reference:</p> <p>ANZCA (Australian and New Zealand College of Anaesthetists) 2010.
