Patient—sedation received indicator, yes/no code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Sedation received indicator
METEOR identifier:	563828
Registration status:	Health , Superseded 06/09/2018
Definition:	An indicator of whether a patient has received sedation, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Patient—sedation received indicator
METEOR identifier:	563837
Registration status:	Health , Standard 29/08/2014
Definition:	An indicator of whether the patient has received sedation from a qualified medical professional.
Object class:	Patient
Property:	Sedation received indicator

Value domain attributes

Identifying and definitional attributes

Value domain:	Yes/no code N
METEOR identifier:	270732
Registration status:	Health , Standard 01/03/2005 Community Services (retired) , Standard 27/04/2007 Early Childhood , Standard 21/05/2010 Housing assistance , Standard 23/08/2010 Homelessness , Standard 23/08/2010 Independent Hospital Pricing Authority , Standard 01/11/2012 Indigenous , Standard 16/09/2014 Disability , Standard 07/10/2014 WA Health , Standard 19/03/2015 National Health Performance Authority (retired) , Retired 01/07/2016 Tasmanian Health , Standard 27/05/2020 Australian Teacher Workforce Data Oversight Board , Standard 30/08/2022 Australian Institute of Health and Welfare , Recorded 09/08/2023
Definition:	A code set representing 'yes' and 'no'.

Representational attributes

Representation class:	Code				
Data type:	Boolean				
Format:	N				
Maximum character length:	1				
Permissible values:	<table><thead><tr><th>Value</th><th>Meaning</th></tr></thead><tbody><tr><td>1</td><td>Yes</td></tr></tbody></table>	Value	Meaning	1	Yes
Value	Meaning				
1	Yes				

Source and reference attributes

Submitting organisation: Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use: CODE 1 Yes
To be recorded when a patient has received sedation.

CODE 2 No
To be recorded when a patient has not received sedation.

DSS specific information:

The level of sedation used should comply with ANZCA standards (ANZCA 2010). The level of sedation used should generally be related to the risk of complications for each individual patient as documented in the pre-procedure patient assessment. Further, deep sedation and general anaesthesia may only be used in the presence of an anaesthetist or other appropriately trained and credentialed medical specialist within his/her scope of practice. Non-anaesthetist medical staff require adequate training in the safe and correct usage of sedation equipment and drugs, and in the management and monitoring of sedated patients in accordance with the guidelines.
