Value Domain:	Yes/no code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Boolean	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
---------------------------------	--

Data element attributes

Collection and usage attributes

Guide for use:	Code 1 Yes
	All three doses of HPV vaccine have been received in accordance with the CMO guidelines
	Code 2 No
	All three doses of HPV vaccine have not been received in accordance with the CMO guidelines

Comments:

Under the Chief Medical Officer guidance, valid HPV vaccination is considered to have occurred where there is a total interval of 111 or more days between the first and third doses, or for those aged 15 years and under, a gap between the first and third doses of 74 or more days.
