Person—reason for suspending disease screening participation, code N

Exported from METEOR (AIHW's Metadata Online Registry)

Person—reason for suspending disease screening participation, code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Reason for suspending disease screening participation
METEOR identifier:	568098
Registration status:	Health, Standard 29/08/2014
Definition:	The reason the person suspended participation in a **disease screening program**, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Person—reason for suspending disease screening participation
METEOR identifier:	568096
Registration status:	Health, Standard 29/08/2014
Definition:	The reason the person suspended participation in a **disease screening** program.
Object class:	Person
Property:	Reason for suspending disease screening participation

Value domain attributes

Identifying and definitional attributes

Value domain:	Reason for suspending disease screening participation code N
METEOR identifier:	568077
Registration status:	Health, Standard 29/08/2014
Definition:	A code set representing the reason for suspending participation in a disease screening program.

Representational attributes

Representation class:	Code
Data type:	Number
Format:	N
Maximum character length:	1

	Value	Meaning
Permissible values:	1	Recent colonoscopy
	2	Other recent screening
	3	Seeking general practitioner (GP) advice
	4	Illness
	5	Travelling
	6	Administrative reason

	8	Other reason
Supplementary values:	9	Not stated/inadequately described

Data element attributes

Collection and usage attributes

Guide for use:
Record the main reason for suspending disease screening participation.

Information on why participants are suspending disease screening participation may help improve disease screening programs.
