Person—reason for suspending disease screening participation, code N

Identifying and definitional attributes

Metadata item type: Data Element

Short name: Reason for suspending disease screening participation

METEOR identifier: 568098

Registration status: Health, Standard 29/08/2014

Definition: The reason the person suspended participation in a disease screening program,

as represented by a code.

Data Element Concept: Person—reason for suspending disease screening participation Value Domain: Reason for suspending disease screening participation code N

Value domain attributes

Representational attributes

Representation class: Code Data type: Number Format: Maximum character length: 1

	Value	Meaning
Permissible values:	1	Recent colonoscopy
	2	Other recent screening
	3	Seeking general practitioner (GP) advice
	4	Illness
	5	Travelling
	6	Administrative reason
	8	Other reason
Supplementary values:	9	Not stated/inadequately described

Data element attributes

Collection and usage attributes

Guide for use: Record the main reason for suspending disease screening participation.

Information on why participants are suspending disease screening participation

may help improve disease screening programs.
