Aboriginal and Torres Strait Islander primary health-care substance use services cluster

Identifying and definitional attributes

Metadata item type: Data Set Specification

METEOR identifier: 568863

Registration status: [Indigenous](#), Superseded 07/12/2017

DSS type: Data Element Cluster

Scope: Aboriginal and Torres Strait Islander primary health-care services provide treatment or assistance to clients for a range of substance use issues. This includes both illicit substances and the use of alcohol, and tobacco and nicotine. Most services are provided on an individual basis, although some services run programs specifically for different types of substances.

The Aboriginal and Torres Strait Islander primary health-care substance use services cluster describes the type of substances that are used for a purpose not consistent with legal or medical guidelines, and whether the assistance is provided on an individual client basis or as part of a specifically targeted program by the Aboriginal and Torres Strait Islander primary health-care services, during the reporting period.

Service provider substance use treatment/assistance services

Substance (Drug of concern)	Treatment/assistance delivered on an individual client basis	Treatment/assistance delivered as a specifically targeted program
Text		
Text		
Text		

The data element cluster also describes the type of substance use services provided by the Aboriginal and Torres Strait Islander primary health-care services, during the reporting period.
