

Cancer treatment—date of treatment outcome

Metadata item type: Data Element Concept

METEOR identifier: 572844

Registration status:

- [Health](#), Standard 04/02/2015

Definition: The date at the completion of the course of treatment for cancer on which the response of the tumour is recorded.

Object Class attributes

Identifying and definitional attributes

Object class: [Cancer treatment](#)

Definition: The course of cancer-directed treatment or treatments, with defined dates of commencement and cessation, given to the patient by a treatment provider or team of providers.

This may include cancer-directed surgical treatment, radiation therapy and systemic agent therapy for cancer. It applies to the primary course of cancer treatment, treatment administered to the patient in response to disease progression or treatment administered to the patient in response to disease recurrence.
