Data element attributes

Collection and usage attributes

| | |
|-----------------------|---|
| Guide for use: | <p>The phase of mental health care is the primary goal of care that is reflected in the patient's mental health treatment plan. It reflects a prospective assessment of the primary goal of care at the time of collection, rather than a retrospective assessment.</p> <p>A phase of mental health care ends either when a patient concludes an episode of mental health care or when the primary goal of care changes in an existing mental health care episode, in which case a new mental health phase should be commenced.</p> |
