Data element attributes

Collection and usage attributes

Guide for use:	<p>The phase of mental health care is the primary goal of care that is reflected in the patient's mental health treatment plan. It reflects a prospective assessment of the primary goal of care at the time of collection, rather than a retrospective assessment.</p> <p>A new phase of mental health care begins either when a patient commences an episode of mental health care or when the primary goal of care changes in an existing mental health care episode.</p>
