Implementation in Data Set Specifications:

[Admitted patient mental health care cluster](#)
[Independent Hospital Pricing Authority](#), Standard 15/10/2014

DSS specific information:

If collected, mental health interventions should be reported at the admitted episode of care level.

[Ambulatory patient mental health care cluster](#)
[Independent Hospital Pricing Authority](#), Standard 15/10/2014

DSS specific information:

For the purposes of this DSS, an ambulatory episode is defined as a period of continuous contact between a consumer and a mental health service within an ambulatory service setting. This is consistent with the definition in the National Outcomes and Casemix Collection.

If collected, mental health interventions should be reported at the ambulatory episode of care level.

[Residential patient mental health care cluster](#)
[Independent Hospital Pricing Authority](#), Standard 15/10/2014

DSS specific information:

If collected, mental health interventions should be reported at the residential episode of care level.
