National Indigenous Reform Agreement: PI 14b- Level of workforce participation (survey data), 2015

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 14b-Level of workforce participation (survey data), 2015
METEOR identifier:	579106
Registration status:	Indigenous , Superseded 18/11/2015
Description:	There are three measures for this indicator: a) Employment to population ratio. b) Unemployment rate. c) Labour force participation rate.
Rationale:	Participation in employment has important consequences for living standards, social and emotional wellbeing and participation in the community. This is a key measure of the target to halve the gap in employment outcomes between Indigenous and non-Indigenous Australians within a decade.
Indicator set:	National Indigenous Reform Agreement (2015) Indigenous , Superseded 18/11/2015
Outcome area:	Indigenous people of working age participate effectively in all sectors and at all levels of the labour market Indigenous , Standard 21/07/2010

Collection and usage attributes

Population group age from:	15 years
Population group age to:	64 years
Computation description:	Presentation: Number and percentage (per 100 persons). Relative standard errors and 95% confidence intervals are calculated for proportions. Rate ratios and rate differences are calculated for Indigenous:non-Indigenous.
Computation:	Rate: $100 \times (\text{Numerator} \div \text{Denominator})$. Rate ratio: Indigenous rate divided by non-Indigenous rate. Rate difference: Indigenous minus non-Indigenous rate.
Numerator:	For a) Number of employed people aged 15–64 years. For b) Number of unemployed people aged 15–64 years. For c) Number of people aged 15–64 years in the labour force.

Numerator data elements:**Data Element / Data Set**

Person—age

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey

Based on 2012 SEW.

Main non-Indigenous numerator data source.

Data Element / Data Set

Person—labour force status

Data Source

[ABS Survey of Education and Work \(SEW\)](#)

Guide for use

Data source type: Survey

Based on 2012 SEW.

Main non-Indigenous numerator data source.

Data Element / Data Set

Person—age

Guide for use

Data source type: Survey

Comments:

The most recent survey data for 2015 reporting is the ABS 2012-13 AATSIHS.

Data sources for this indicator are:

- core component of the AATSISS (Indigenous); NATSIHS component and NATSINPAS component; and
- SEW (non-Indigenous) - SEW data (non-Indigenous) 2012.

The baseline report presented data from the 2008 NATSISS (Indigenous) and 2008 SEW (non-Indigenous) as the main data collection. The 2014 report presented data from the NATSIHS component of the 2012-13 AATSIHS and the matched 2012-13 SEW.

Prior to 2010, the Survey of Work and Education (SEW) did not include people living in very remote areas. From 2010 onwards, the SEW includes people living in very remote areas except discrete Indigenous communities. Whilst a closing of the scope gap, this may continue to affect the comparability of results.

Prior to 2010, the SEW did not include the remoteness variable. Therefore, a non-Indigenous comparator for remoteness for the 2008 NATSISS is not reported.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

Baseline year for NIRA target (Halve the gap in employment outcomes within a decade) is 2008; baseline year for this indicator is 2008; target year is 2018.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person
Format: N[N].N

Indicator conceptual framework
