National Indigenous Reform Agreement: PI 15a- Proportion of Indigenous 20-64 year olds with or working towards a post-school qualification in Certificate level III or above, (Census data) 2015

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 15a-Proportion of Indigenous 20-64 year olds with or working towards a post-school qualification in Certificate level III or above (Census data), 2015
METEOR identifier:	579108
Registration status:	Indigenous , Superseded 18/11/2015
Description:	Proportion of people aged 20–64 years with, or working towards, post-school qualifications in Australian Qualifications Framework (AQF) Certificate level III or above by Indigenous status.
Rationale:	Post-secondary education leads to better employment prospects and for Indigenous persons will help to achieve the target to halve the gap in employment outcomes within a decade.
Indicator set:	National Indigenous Reform Agreement (2015) Indigenous , Superseded 18/11/2015
Outcome area:	The Indigenous workforce age population has the depth and breadth of skills and capabilities required for the 21st century labour market Indigenous , Standard 21/07/2010

Collection and usage attributes

Population group age from:	20 years
Population group age to:	64 years
Computation description:	Presentation: Number and percentage (per 100 persons).
Computation:	$100 \times (\text{Numerator} \div \text{Denominator})$.
Numerator:	People aged 20–64 years who have attained post-school qualifications in AQF Certificate level III or above, or are currently studying a non-school qualification at any level.

Comments:

2011 Census data were provided for 2013 reporting but was not available disaggregated by remoteness. 2011 Census data resupplied for the 2014 reporting disaggregated by remoteness.

Data sources for this measure are:

- Census

The baseline report reported data from the 2006 Census as the main data collection.

For persons 'with' a non-school qualification:

- People whose level of education was inadequately described are excluded from the calculation (numerator and denominator).
- The Census measure excludes people whose level of highest non-school qualification or attendance status is not stated or inadequately described if they fail to meet the indicator criteria for either variable.
- Persons whose level of non-school qualification is determined to be certificate level but is not able to be further defined (i.e. Certificate nfd) are assumed to have attained a qualification below Certificate level III and are therefore excluded from the numerator for this indicator.

For persons 'working towards' a non-school qualification:

- Level of qualification is not available for people 'working towards' post-school qualifications. Therefore, people enrolled in study are included in the calculations for this indicator.

Total population excludes people whose level of non-schooling qualification or attendance status was not stated.

At this stage, the Australian Bureau of Statistics (ABS) advises that information is only available on qualification levels for those who have completed studies (not those who are currently studying). Therefore, the ABS recommended restricting the definition for baseline reporting accordingly to those who have completed Certificate Level III or above, and those currently studying a non-school qualification.

Baseline year for NIRA target (Halve the gap in employment outcomes within a decade) is 2008; baseline year for this measure is 2006.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Indicator conceptual framework

Framework and dimensions: [Socioeconomic Factors](#)

Data source attributes

Data sources:

Data Source

[ABS 2011 Census of Population and Housing](#)

Frequency

Every 5 years.

Data custodian

Australian Bureau of Statistics.

Accountability attributes

Organisation responsible for providing data: Australian Bureau of Statistics (ABS).

Further data development / collection required: Specification: Interim.

Data are required on the level of qualification for those currently studying (working towards a qualification).

The ABS have collected level and field of current study in the 2012-13 Australian Aboriginal and Torres Strait Islander Health Survey. These data are also available in the annual ABS Survey of Education and Work.
