Establishment—number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bacteraemia patient episodes, total episodes N[NNNN]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bacteraemia patient episodes
METEOR identifier:	585164
Registration status:	Health , Superseded 10/06/2022
Definition:	The total number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bacteraemia patient episodes , attributed to care provided by the hospital, reported during a specified reference period.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Establishment—number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bacteraemia patient episodes
METEOR identifier:	585166
Registration status:	Health , Superseded 10/06/2022
Definition:	The number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bacteraemia patient episodes , attributed to care provided by the hospital, reported during a specified reference period.
Object class:	Establishment
Property:	Number of healthcare-associated Methicillin-resistant Staphylococcus aureus (MRSA) bacteraemia patient episodes

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
--------------------------	--

Value domain attributes

Identifying and definitional attributes

Value domain:	Total episodes N[NNNN]
METEOR identifier:	439403
Registration status:	Health , Standard 15/11/2012 Indigenous , Standard 07/04/2024
Definition:	Number of episodes.

Representational attributes

Representation class:	Total
Data type:	Number
Format:	N[NNNN]

Data element attributes

Collection and usage attributes

Guide for use:	The number of healthcare-associated MRSA patient episodes at a hospital may be zero.
Comments:	MRSA is an isolate of <i>Staphylococcus aureus</i> that is identified by a laboratory as being resistant to methicillin or a test that predicts methicillin resistance (ACSQHC unpublished).

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
Reference documents:	ACSQHC (Australian Commission on Safety and Quality in Health Care), unpublished. Endorsed amendments to the <i>Staphylococcus aureus</i> bacteraemia (SAB) Data set specification (DSS). Sydney: ACSQHC.
