

International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification 9th edition

Identifying and definitional attributes

Metadata item type:	Classification Scheme
Synonymous names:	ICD-10-AM 9th edn
METEOR identifier:	588975
Registration status:	<ul style="list-style-type: none">• Health, Superseded 05/10/2016• Independent Hospital Pricing Authority, Qualified 23/11/2015• Tasmanian Health, Superseded 05/07/2017
Definition:	The National Centre for Classification in Health classification of diseases and related health problems.
Classification structure:	ICD-10-AM is comprised of: <ul style="list-style-type: none">• Tabular List of Diseases - contains core three character codes with some expansion to four and five character codes. Two appendices are specified: Morphology of neoplasms; and Special tabulation lists for mortality and morbidity.• Alphabetic Index of Diseases - consists of three sections: Section I is the index of diseases, syndromes, pathological conditions, injuries, signs, symptoms, problems and other reasons for contact with health services. Section II is the index of external causes of injury. The terms included here are not medical diagnoses but descriptions of the circumstances in which the violence occurred. Section III is the index of drugs and other chemical substances giving rise to poisoning or other adverse effects (also known as the Table of drugs and chemicals).

Source and reference attributes

Origin:	Australian Consortium for Classification Development (ACCD) 2014. The International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification (ICD-10-AM) – Ninth Edition - Tabular list of diseases and Alphabetic index of diseases. Adelaide: Independent Hospital Pricing Authority, Lane Publishing.
Revision status:	ICD-10-AM was developed by the National Centre for Classification in Health (NCCH). During the development, the NCCH was advised by members of the NCCH Coding Standards Advisory Committee (CSAC) and the Clinical Classification and Coding Groups (CCCG), consisting of expert clinical coders and clinicians nominated by the Clinical Casemix Committee of Australia.
