Data element attributes

Collection and usage attributes

Guide for use: This item is used in instances where multiple claims or part-claims are made by the pharmacy on a particular day, and is appended to the claim date to create, along with the pharmacy identifier, a unique identifier for each claim or part-claim lodged by the pharmacy on the claim date.

In cases where more than one claim is made by the pharmacy on a particular day, the data item might contain a value in the range A-Z or 0-9. A single space is also a valid value.

Accordingly, the character can be used to distinguish between up to 37 different claims from the same pharmacy for the same day.
