# Closing the Gap co-payment eligibility code AAA[NNA]

## Identifying and definitional attributes

<b>Metadata item type:</b>	Value Domain
<b>METEOR identifier:</b>	603677
<b>Registration status:</b>	<a href="#">Commonwealth Department of Health</a> , Retired 19/10/2023
<b>Definition:</b>	A code representing eligibility for Closing the Gap (CTG) co-payment relief.
<b>Context:</b>	The CTG co-payment was established to reduce the cost of Pharmaceutical Benefits Scheme (PBS) medicines for eligible Aboriginal and Torres Strait Islander people either living with or at risk of chronic disease.

## Representational attributes

<b>Representation class:</b>	Code	
<b>Data type:</b>	String	
<b>Format:</b>	AAA[NNA]	
<b>Maximum character length:</b>	6	
	<b>Value</b>	<b>Meaning</b>
<b>Supplementary values:</b>	6 spaces	Not applicable, i.e. ineligible for Closing the Gap co-payment relief

## Collection and usage attributes

<b>Guide for use:</b>	<p>The first three characters of the code should be 'CTG', followed by a two-digit number incremented within the practice of the prescriber each time an eligible prescription is written. The sixth character is an alphabetic check digit.</p> <p>After the numeric component of the codes used by the practice reaches '99', it resets to '01', i.e. the next code allocated by the practice would begin with 'CTG01'.</p> <p>It is possible for a practice to allocate the same six-digit code more than once on the same day, i.e. if 100 or more eligible prescriptions are written. However, the date of prescription forms part of the check digit calculation algorithm, so while eligible prescriptions written within a practice may share a common first five characters, the check digit should change from day to day.</p>
