of times that the prescribed medicinal product is supplied to the patient or PBS

consumer.

Data Element Concept: Pharmaceutical Benefits Scheme (PBS) prescription—number of authorised

medication supplies

Value Domain: <u>Total number N[N]</u>

Value domain attributes

Representational attributes

Representation class: Total

Data type: Number

Format: N[N]

Maximum character length: 2

Value Meaning

Supplementary values: 99 Not stated/inadequately described

Data element attributes

Collection and usage attributes

Guide for use: This data item should be used in conjunction with the data item Regulation 24

applicable indicator.

For 'single supply' prescriptions, i.e. those that specify an original supply only of the prescribed medicinal product with no repeats, this data item should have a value of

1.

For repeat prescriptions, this data item should have either:

- a value of 1 for those prescriptions where Regulation 24 applicable indicator has a negative response, or
- a value equivalent to 1 plus the number of repeats specified by the
 prescriber for those prescriptions where Regulation 24 applicable indicator
 has a positive response, e.g. for a prescription where 5 repeats are specified
 by the prescriber and the Regulation 24 applicable indicator has a positive
 response, this data should have a value of 6.
