Implementation in Data Set Service provider organisation cluster (Mainstream community housing)

Housing assistance, Standard 30/08/2017

DSS specific information:

The Community Housing collection collects support service type information using a series of "yes/no" questions representing different support service types. The support service types match those listed in the data element Service provider organisation—support service type, code N[N] ("Support service type").

The Support service type data element should be collected once for each support service type identified with a "yes" response, to a maximum of eight. If the value recorded for this data element is "88" ("Other") then a value for the data element Service provider organisation—support service type, text [X(40)] should be

recorded.
