

# Disability services provider details cluster

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Set Specification
<b>METEOR identifier:</b>	617065
<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Disability</a>, Standard 13/08/2015</li></ul>
<b>DSS type:</b>	Data Element Cluster
<b>Scope:</b>	This cluster of data elements provides information on the administrative arrangements and scope of operations of a specialist disability service reporting to the Disability Services NMDS.

## Collection and usage attributes

<b>Guide for use:</b>	If a funded agency provides, for example, both accommodation support and respite services, it is counted as two service outlets. Similarly, if an agency is funded to provide more than one accommodation support service type (for example, group homes and attendant care) then it is providing (and is usually separately funded for) two different service types, that is, there are two service outlets for the funded agency.
