

Use of broad-spectrum antibiotics

Identifying and definitional attributes

Metadata item type: Outcome Area
METEOR identifier: 624357
Registration status:

- [Health](#), Standard 12/09/2016

Description: A patient who is treated with broad-spectrum antibiotics has the treatment reviewed and, if indicated, switched to treatment with a narrow-spectrum antibiotic. This is guided by the patient's clinical condition and the results of microbiology tests.
