# Person—current opioid pharmacotherapy treatment program indicator, prisoner health yes/no/unknown code N

## Identifying and definitional attributes

|                              |   |
|------------------------------|---|
| <b>Metadata item type:</b>   | Data Element  |
| <b>Short name:</b>           | Current opioid pharmacotherapy treatment program indicator  |
| <b>Synonymous names:</b>     | Current opiate replacement program indicator  |
| <b>METEOR identifier:</b>    | 626588  |
| <b>Registration status:</b>  | <a href="#">Health</a> , Standard 28/04/2016  |
| <b>Definition:</b>           | An indicator of a person's current participation in a drug-based opioid dependence treatment program, as represented by a code. |
| <b>Data Element Concept:</b> | <a href="#">Person—current opioid pharmacotherapy treatment program indicator</a>   |
| <b>Value Domain:</b>         | <a href="#">Prisoner health yes/no/unknown code N</a>   |

## Value domain attributes

## Representational attributes

|                                  |              |                |
|----------------------------------|--------------|----------------|
| <b>Representation class:</b>     | Code         |                |
| <b>Data type:</b>                | Number       |                |
| <b>Format:</b>                   | N            |                |
| <b>Maximum character length:</b> | 1            |                |
|                                  | <b>Value</b> | <b>Meaning</b> |
| <b>Permissible values:</b>       | 1            | Yes            |
|                                  | 2            | No             |
| <b>Supplementary values:</b>     | 9            | Unknown        |

## Collection and usage attributes

|                       |   |
|-----------------------|---|
| <b>Guide for use:</b> | For use in Prisoner health data collections. If this value domain is used with other metadata then 'Unknown' would map to code 8. |
|-----------------------|---|

## Source and reference attributes

|                                 |  |
|---------------------------------|--|
| <b>Submitting organisation:</b> | Australian Institute of Health and Welfare |
|---------------------------------|--|

## Data element attributes

## Collection and usage attributes

|                       |   |
|-----------------------|---|
| <b>Guide for use:</b> | This data element should be used in conjunction with the data element: <a href="#">Person—type of opioid pharmacotherapy treatment, code N</a> to provide information on a person's current opioid pharmacotherapy treatment. |
|-----------------------|---|

**Comments:** Imprisonment may provide an opportunity to access drug treatments including pharmacotherapy and counselling programs.

Examples of opioid substitution programs include methadone, naltrexone, buprenorphine, suboxone and LAAM.
