

# Chronic condition cluster

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Set Specification
<b>METEOR identifier:</b>	627046
<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Health</a>, Standard 28/04/2016</li></ul>
<b>DSS type:</b>	Data Element Cluster
<b>Scope:</b>	The Chronic condition cluster defines: <ul style="list-style-type: none"><li>• the number of prison entrants who have ever been told that they have either arthritis, asthma, cancer, cardiovascular disease or diabetes; and</li><li>• the number of prison entrants who currently have at least one of the above listed chronic conditions.</li></ul>

## Collection and usage attributes

<b>Guide for use:</b>	<p>The Chronic condition cluster comprises three data elements which allow:</p> <ol style="list-style-type: none"><li>1. Data on the type of chronic condition to be combined with an indicator of whether the prison entrant has ever been told by a doctor or nurse that he or she has the condition. This is achieved by the combination of the two data elements: <a href="#">Person—type of chronic condition, code N</a> and <a href="#">Person—specific chronic condition indicator, prisoner health yes/no/unknown code N</a>.</li><li>2. Data on the type of chronic condition to be matched with an indicator of whether the person reports that they currently have the condition. This is achieved by the combination of the two data elements: <a href="#">Person—type of chronic condition, code N</a> and <a href="#">Person—chronic condition indicator, prisoner health yes/no/unknown code N</a>.</li></ol> <p>This combination of the three data elements as shown above allows the following two items to be recorded:</p> <ul style="list-style-type: none"><li>• the type of chronic condition the prison entrant reports ever having been told they have, and</li><li>• whether the prison entrant reports that they currently have the chronic condition.</li></ul>
<b>Collection methods:</b>	Information on chronic conditions is collected at the reception assessment on the National Prisoner Health Data Collection Prison Entrants form.
