**Comments:**

Most recent data available for the 2017 National Healthcare Agreement performance reporting: 2014-15 (total population, non-Indigenous: NHS); 2014–15 (Indigenous only: NATSISS).

National Aboriginal and Torres Strait Islander Social Survey (NATSISS) or National Aboriginal and Torres Strait Islander Health Survey (NATSIHS) data may be used for analysis, dependent upon which survey is most recent.

The modified K5 scale from the 2014–15 NATSISS was used with the corresponding 5 questions from the 2014–15 NHS to compare the psychological distress levels of Aboriginal and Torres Strait Islander and non-Indigenous peoples.
