

National Healthcare Agreement: PI 14–People deferring access to selected healthcare due to financial barriers, 2017

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 14–People deferring access to selected healthcare due to financial barriers, 2017
METEOR identifier:	630020
Registration status:	<ul style="list-style-type: none">• Health, Superseded 30/01/2018
Description:	Proportion of people who required treatment but deferred that treatment due to cost, by type of health service.
Indicator set:	National Healthcare Agreement (2017) Health , Superseded 30/01/2018
Outcome area:	Primary and Community Health Health , Standard 07/07/2010
Quality statement:	National Healthcare Agreement: PI 14-People deferring access to selected healthcare due to financial barriers, 2017 QS Health, Standard 31/01/2017

Collection and usage attributes

Population group age from:	15 years
Computation description:	Population is limited to persons aged 15 years and over. Analysis by remoteness and Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socio-economic Disadvantage (IRSD) is based on usual residence of person. Presented as a percentage. 95% confidence intervals and relative standard errors calculated for rates.
Computation:	$100 \times (\text{numerator} \div \text{denominator})$ calculated separately for each type of healthcare (GP, medical specialist, dental care, prescribed medication, pathology or imaging tests).

Numerator:

- (a) Number of persons who reported delaying or not seeing a GP in the last 12 months because of cost.
- (b) Number of persons who reported delaying or not seeing a medical specialist in the last 12 months because of cost.
- (c) Number of persons who reported delaying or not getting a prescription filled for medication in the last 12 months because of cost.
- (d) Number of persons who reported delaying or not seeing a dental practitioner in the last 12 months because of cost.
- (e) Number of persons who reported delaying or not getting pathology or imaging tests in the last 12 months because of cost.

Disaggregation:

2015–16—State and Territory, by type of healthcare (GP, prescribed medication, i.e. measures (a) and (c)).

2015–16—State and Territory, by type of healthcare (medical specialist, dental care, pathology or imaging tests, i.e. measures (b), (d) and (e)) (not reported).

2015–16—State and Territory, by type of healthcare (GP, medical specialist, dental care, prescribed medication, pathology or imaging tests, i.e. measures (a) to (e)), by (not reported):

- remoteness (Australian Statistical Geography Standard (ASGS) Remoteness Structure) (major cities, other)

2015–16—Nationally by type of healthcare (GP, medical specialist, dental care, prescribed medication, pathology or imaging tests, i.e. measures (a) to (e)), by (all not reported):

- sex
- 2011 Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socioeconomic Disadvantage (IRSD) deciles
- remoteness (Australian Statistical Geography Standard (ASGS) Remoteness Structure) (major cities, inner regional, outer regional, remote/very remote)

Some disaggregation may result in numbers too small for publication.

Data source type: Survey

Used for disaggregation by state/territory and remoteness

Comments:

Most recent data available for 2017 National Healthcare Agreement performance reporting: 2015–16 (total population: PEX); 2012–13 (Indigenous: AATSIHS).

Non-Indigenous data from PEX may not be directly comparable with data for Indigenous people from AATSIHS.

Information about dental practitioners is obtained by asking survey respondents about services received from a dental professional. Examples of dental professionals given to survey respondents in the questionnaire are dentists, dental hygienists and dental specialists. The intention is that survey respondents should provide information about all dental professionals, which may additionally include such practitioners as dental therapists, oral health therapists, and dental prosthetists, as well as specialists such as orthodontists, periodontists and endodontists.

Pathology and imaging tests exclude those had while in hospital. Imaging tests also exclude those for dental work.

Some survey respondents may report pathology and imaging as a referral to a medical specialist.

Representational attributes

Representation class:	Percentage
Data type:	Real
Unit of measure:	Person
Format:	N[NN.NN]

Indicator conceptual framework

Framework and dimensions:	Accessibility
