National Healthcare Agreement: PI 21a—Waiting times for emergency hospital care: Proportion seen on time, 2017

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Progress measure
Short name:	PI 21a—Waiting times for emergency hospital care: Proportion seen on time, 2017
METEOR identifier:	630043
Registration status:	Health , Superseded 30/01/2018
Description:	Percentage of patients who are treated within national benchmarks for waiting times for each triage category in public hospital emergency departments.
Indicator set:	National Healthcare Agreement (2017) Health , Superseded 30/01/2018
Outcome area:	Hospital and Related Care Health , Standard 07/07/2010 National Health Performance Authority (retired) , Retired 01/07/2016
Data quality statement:	National Healthcare Agreement: PI 21a-Waiting times for emergency department care: proportion seen on time, 2017 QS Health , Standard 31/01/2017

Collection and usage attributes

Computation description:	<p>See Non-admitted patient emergency department service episode—triage category, code N for description of each triage category.</p> <p>The numerator and denominator include records with a Type of visit of <i>Emergency presentation</i>.</p> <p>Records are excluded from both the numerator and denominator if the episode end status is either <i>Did not wait to be attended by a health professional</i>, or <i>Dead on arrival, emergency department clinician certified the death of the patient</i>, or if the waiting time to service is <i>invalid</i>.</p> <p>The scope for calculation of this indicator is all hospitals reporting to the Non-admitted patient emergency department care (NAPEDC) National Minimum Data Set (NMDS) 2015–16.</p> <p>Analysis by state and territory is based on location of service.</p> <p>Analysis by remoteness and Socio-Economic Indexes for Areas (SEIFA) Index of Relative Socio-economic Disadvantage (IRSDD) is based on usual residence of person.</p> <p>Presented as a percentage.</p>
Computation:	<p>$100 \times (\text{Numerator} \div \text{Denominator})$</p> <p>Calculated overall and separately for each triage category.</p>

Numerator:

Number of presentations to public hospital emergency departments that were treated within benchmarks for each triage category:

- Triage category 1: seen within seconds, calculated as less than or equal to 2 minutes
- Triage category 2: seen within 10 minutes
- Triage category 3: seen within 30 minutes
- Triage category 4: seen within 60 minutes
- Triage category 5: seen within 120 minutes

Disaggregation:

2015–16—Nationally, by Triage category, by 2011 SEIFA IRSD deciles (not reported).

2015–16—State and territory, by Triage category by:

- peer group
- Indigenous status
- remoteness (Australian Statistical Geography Standard (ASGS) Remoteness Structure)
- 2011 SEIFA IRSD quintiles

Disaggregation by peer group uses the peer group classification as described in [Admitted patient care 2013–14: Australian hospital statistics](#).

Some disaggregation may result in numbers too small for publication.

Comments: Most recent data available for 2017 National Healthcare Agreement performance reporting: 2015–16.

For 2015–16 data, the 2011 SEIFA IRSD quintile and decile data will be produced using the Australian Statistical unit of Statistical Area Level 2.

Note that for the 2015 and previous reports the scope for the calculation of this indicator was limited to public hospitals in Peer Groups A and B, using the peer group classification method as reported in [Australian hospital statistics 2010–11](#), with the addition of emergency department activity at the Mersey Community Hospital.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: NN[N]

Indicator conceptual framework

Framework and dimensions: [Accessibility](#)

Data source attributes

Data sources:

Data Source

[National Non-admitted Patient Emergency Department Care Database](#)

Frequency

Annual

Data custodian

Australian Institute of Health and Welfare

Accountability attributes

Reporting requirements: National Healthcare Agreement

Organisation responsible for providing data: Australian Institute of Health and Welfare

Further data development / collection required: Specification: Final, the measure meets the intention of the indicator.
