State/territory residential mental health care data

Identifying and definitional attributes

Item type: Data Source

METEOR identifier: 630460

Description: The state/territory health authorities receive these data from public sector residential health services. States and territories use these data for service planning, monitoring, and internal and external reporting.

The provision of mental health care services is the responsibility of the health authorities in each of the states and territories. More information is available from the applicable website for each jurisdiction.
