Australian Government Department of Health's Ageing and Aged Care data warehouse

Identifying and definitional attributes

Item type: Data Source

METEOR identifier: 644993

Description: The Australian Government Department of Health's (Health) Ageing and Aged Care data warehouse holds data for residential and community aged care programs administered by Health. The warehouse holds data on: service providers; services; places; people; assessments; outputs; funding; quality and compliance. The data are provided to Health by: service providers, Aged Care Assessment Teams, Medicare Australia and the Aged Care Accreditation Agency.

Health is the data custodian for the data for programs wholly funded by the Australian Government. Custodianship is shared with the states and territories where the program is jointly funded or managed with the states and territories.

Data are collected in accordance with relevant legislation and the business processes of each specific aged care program. The timing of data provisions to the warehouse ranges from daily to annually.

The [Australian Aged Care Quality Agency data warehouse](#) is a component of the Ageing and Aged Care data warehouse.
